Dear Mr. Hsu:

In acknowledgment of your email, we feel claims 7-16 are rejectable in light of the prior art and therefore best to continue prosecution via an office action. Thank You.

Regards,

Michael Choi

Subject: Answer for the examiner's proposal
Importance: High

Dear Mr. Choi:

Sorry about the delay in answering your proposed examiner's amendment. After discussing with my client about your proposal, the client partially accepted your proposed amendment. They agreed to cancel the claims 17 - 19, but rejected to cancel the claims 7 - 16. They thought that their embodiment is not related to the prior art "multi-bit-per-cell-memory", "writing" and "editing" at all.

If you want to proceed the telephone interview with me to solve the discrepancy, please let me know by either sending me an e-mail or by leaving a message in my voice mail (listed below). I am not sure such a big difference can be solved before the end of this week. If you do not want to proceed this discussion, you can choose to issue an office action to me instead. Please also let me know if you want to do so. Thank you very much for your proposal anyway.

Sincerely,

Winston Hsu
